Himakar Chappidi

FullStack|Cloud|DevOps Engineer

himakar365@gmail.com | +91 8125442003

Education

B. Tech, CSE

Institute of Aeronautical Engineering College

2021-25 | HyderabadCGPA: 8.2

Intermediate, MPC

Vectra Medit Junior College

Percentage: 96%

2019-21 | Hyderabad

SSC

Ravindra Bharathi High School

Percentage: 98%

2015-19 | Hyderabad

Skills

Programming Languages

Python, Java, C

Tools

- Git
- Linux
- Windows

Technologies

- HTML
- Django
- MySQL
- Azure Cloud
- AWS
- Terraform
- Docker
- Kubernetes

Languages

- English
- Hindi
- Telugu

Achievements

- **Leetcode:** Solved 1100+ questions & Ranked 8,500
  Ranked 2,914 with 4/4 questions solved in Leetcode weekly contest 359
- **Interview Bits:** Scored 35,735
- **Code chef:** 3 stars by solving 1000+ questions
- **GeeksforGeeks:** Scored 730+
- **Hackerrank:** 6 stars for Problem solving
- Awarded **GitHub Pull Shark** Badge

Certification(s)

AZ-900 - Microsoft Certified Azure Fundamentals.

Credential ID: A1803C73868BFF9E

PCEP - Python Certified Entry-Level Programmer by the Python Institute.

Certification ID: tmQw.39Xg.ywHj

NPTEL Awarded certificate in Data Structures and Algorithms using Python.

Internship

Cognizant

Programmer Analyst Trainee as **DevOps Engineer**

NSIC Ltd

Internship in AWS Cloud

Code Clause

Internship in Python Development

Project(s)

Django-based E-learning Platform:

Developed an e-learning platform using Django framework, featuring user registration and login functionalities.

Deploying Website Using Docker and Kubernetes in AWS with RDS:

Successfully deployed a website using Docker containers orchestrated by Kubernetes on the Amazon Web Services(AWS) platform with an associated RDS database.

Terraform-Automating Cloud Infrastructure:

This project focused on automating cloud infrastructure using Terraform, an Infrastructure-as-Code (IaC) tool.

Opensource contributions:

Submitted 2 contributions to GitHub Open source:

https://github.com/animator/learn-python/pull/351

https://github.com/animator/learn-python/pull/627
